QUAKERTOWN, PENNSYLVANIA

THROUGH this publication the Secret Schools extend greetings to occult students throughout the world, while at the same time announcing an array of *authentic* occult books suggested and recommended for study purposes.

Occult study, designed to lead man to Life, Light, Wisdom, Soul Illumination and Immortality, must be of a fourfold nature, incorporating the development of bodily health, mental strength, Soul Consciousness, and material and spiritual success in all affairs of life.

The books listed in this catalog recognize the necessity of this fourfold development, are in harmony with the teachings of the Secret Schools, and offer a sufficient variety to permit students a wide range of choice.

It has been the experience of the Secret Schools that because of the authentic and practical instructions contained in these books the student continues to buy until ultimately he is in possession of the complete library of books as listed and described in this publication.

NEWLY REVISED FAVORITE BOOKS

It is a pleasure to announce that the popular occult books listed below have recently been revised, improved and enlarged. Each of these new editions contain truths not in the original editions. Every chapter has been rewritten and revised for the purpose of making these books highly valuable to occult students.

The Rosicrucians, Their Teachings. This book has been completely rewritten. Very little remains of the original edition. If the title had been changed, few students would recognize this book as being a revision of the original first publication under this title. The revised edition carries a 1941 copyright.

The Philosophy of Fire. The revised 1943 edition contains much new information. The chapter on "Light" or "The Brethren of Light" is entirely new and places before the reader much new information not found in any other current occult book. Contains a full page reproduction of THE FLAME in authentic colors.

The Science of the Soul. Here is a book which perhaps has been read by more individuals than any other authentic occult book ever published. The new 1944 edition, with its wealth of new material, should easily make it one of the world's most popular occult books. Because of the vitally important information it contains, the study of this book is urgently recommended to every student. It is in truth one of the most important occult books available anywhere in the world.

THE ROSICRUCIANS; THEIR TEACHINGS

THE author forcefully explains the teachings of the Rose Cross Order, the mysteries and training of its students, and the fundamental laws as taught by the Secret Schools.

This book is especially recommended as a foundation study for all students seeking the path of wisdom, knowledge and Immortality.

The chapters include:

Initiation—The first steps to be taken, "the Soul's Climb to the Divine."

Rosicrucian Symbols.

The Rose—Symbol of Beauty, Life, Love and Pleasure.

The Cross.

The Winged Globe—A most Divine symbol of the Rose Cross.

Rosicrucians and Freemasons.

Rosicrucians—The mystery explained.

The Rosicrucian Manifestoes.

It is the claim of the true and authentic Rosicrucian organization that its members possess knowledge acquired and passed down through many centuries, and that this gives them a power, a control over material affairs and conditions not possessed by ordinary men.

The book explains that this knowledge and this power may be acquired by normal men and women, and that Rosicrucian Secrets and Truths are open to all who prove worthy to receive them.

Neophytes of the Fraternity are requested to read this book. All who consider applying for membership should read it, and every truly aspiring person, man or woman, who is striving to rise above his surroundings and his difficulties will find solace, inspiration and practical help by reading this book.

THE PHILOSOPHY OF FIRE

THE *Fire Philosophy* is the fundamental principle of all Secret Occult Brotherhoods and is the basis of all Religious Mysteries.

In the introductory remarks is this paragraph:

"The object of the Secret Science; the Ancient Mysteries; the Secret Doctrine; of Initiation, and of all Living Religions is one and the same thing; that is, to ennoble mankind and to awaken in men a realization of the divinity of the Soul within themselves. Religion in its theoretical aspect means a real knowledge of the relations which exist between man and the external source from which his Soul emanated in the beginning."

Among some of the subjects dealt with in this book are: the Ancient Mysteries, Secret Doctrines, Regeneration, and a comprehensive chapter on *Atlantis*.

The Fire Worshipers of old did not worship the Fire as commonly understood, but recognized the Fire as a symbol of Love and God. In *The Philosophy of Fire* the Fire Philosophy of the Atlanteans is set forth clearly and interestingly. It also describes the teachings of nearly every Mystic School of ancient times, tracing the Fire Philosophy from its beginning on Atlantis to the present day.

The Philosophy of Fire will inspire the reader with new hope and a conviction that life holds the promise of Immortality for all those with the courage and sincerity to follow the Fire Philosophy.

FRATERNITATIS ROSAE CRUCIS

A BOOK for the student, the casual reader, and the occultist. It is essentially modern, yet it deals with subjects that have long been hidden and discloses the Great Arcanum, published for the first time. Contained in it in simple form are all the *authentic* Hermetic, Alchemical and Rosicrucian symbology.

Among the many interesting chapters in this book are:

The Ancient Secret Schools and Their Teachings; The Rosicrucians; Rosicrucianism; Rosicrucianism and Freemasonry; Rosicrucian Symbolism; The Rosicrucians and Militia; The Foundation of the Order; Johann Valentine Andrea; Paracelsus and His Teachings; The Alchemists, etc., etc.

Where and when did the Fraternity of the Rosy Cross have its beginning? By whom was it originated? Was it always the Rosicrucian Fraternity or does it owe its existence to older organizations? These and many other similar questions are answered in detail in this book.

It has the full endorsement of the INTERNATIONAL SECRET COUNCIL OF NINE, a fact which should be very significant and a recommendation to every student desirous of knowing the true history of the Fraternity.

THE BOOK OF ROSICRUCIA

The History of the Rosicrucians

HERE for the first time in history the student is offered in a single volume the complete history of the world-wide Rosicrucian activity, beginning with the dawn of its history to the present time. This book contains the philosophy of the Rosicrucians as taught during the three most important periods of the Order:

First—The period constituting the life of Paracelsus and his teachings while active head of the Alchemists of the world; while at the same time his co-workers were active in the Hermetic Brotherhood; the merging of the two, giving birth to the Fraternitas Rosæ Crucis.

Second—The period when the Order was most active in France, and concerned equally with Higher Occultism and Spiritual Initiation.

Third—The early active American period during which Randolph was at the height of his career and recognized as the Supreme Grand Master of the Order and of the world.

The book contains:

A list of all the Grand Masters of the Fraternity in all parts of the world where the Order was active.

A list of the Supreme Councils of Three, Seven and Nine, who were co-workers with the Grand Masters.

All of these authorities will be recorded in proper sequence, beginning with the earliest history of the Order to the immediate present. The history will include the activity of the International Confederation of Initiatory Orders, Societies and Fraternities, including a detailed exposition of the symbolism connected with the Fraternity. All facts and claims have been taken directly from the records of the Fraternity, leaving no doubt regarding their authenticity and correctness.

THE BOOK OF ROSICRUCIA, *The History of the Rosicrucians*, by R. Swinburne Clymer; cloth bound, covers stamped in gold. Price, postpaid, \$3.00. A limited number of beautiful de luxe presentation copies; india deckle-edge paper, bound in full leather; side and top gold stamped, \$10.00.

THE BROTHERHOOD OF THE ROSY CROSS

THIS is one of the most unusual books ever published. More than 200 years ago, in a rock-hewn cavern in Germany, seven world leaders of the Secret Schools met in secret to discuss world affairs and plan for the creation of a world-wide "Brotherhood of Man."

At this meeting the prophecy was made that in the new world a new nation would develop, a nation which would receive the downtrodden of all nations, and that this new nation would grow into an Empire such as the world had never before known.

It was also predicted that the Deliverer of this new nation would make his public appearance in 1775. One of the seven men came to America during 1756. He had conceived it as his mission to find the Deliverer of the new nation and acquaint him with the task ahead. Through the Invisible Hierarchy of the Fraternity he was told that the first man to cross the threshold of his home after midnight, January 1, 1774, was to be consecrated the Deliverer.

At the appointed hour George Washington crossed the threshold. He had lost his way and asked to be directed to his home.

Here is a story that will grip the heartstrings of every reader. It is human. It is interesting. It is history. It is America. It is the new nation made up of all the peoples of the earth, and it should grow to be the mightiest Empire in all the world. This is a story that will be read again and again, and it will always be new, always interesting, always a favorite.

THE BROTHERHOOD OF THE ROSY CROSS. Introduction and Preamble by R. Swinburne Clymer. The book itself based on the writings of George Lippard, more than a hundred years ago; printed on fine book paper; 75 pages, bound in cloth; front stamped in gold. Price, postpaid, \$1.00.

A COMPENDIUM OF OCCULT LAW

For the first time in history the student is offered an opportunity to secure, in a single volume, practically all of the occult laws governing both man and nature.

To gather these laws for publication required almost thirty years of research and the analysis of some 10,000 occult books in which these laws were hidden in the form of obscure phrases, alchemical terms, Bible allegories, mythological stories of Knight-hood and the Zodiac.

Now these occult and spiritual laws are unveiled for the benefit and instruction of the student. These laws can be used by man for the accomplishment of his every worthy purpose. They are the laws that lead man to Light and Life, and, ultimately, to Immortality.

Every occult student, every Neophyte, every Initiate of the Secret Schools should have this unusual book of occult laws. It is invaluable for study, for progress on the path, and more important still, the student must know these laws if he expects to live the life that leads to Occult Initiation, Soul Consciousness and Imperial Mastership.

This volume is divided into six books, each a complete unit in itself, and each containing an explanation of from fifty to sixty occult laws. Here is a short description of the six chapters.

THE HERMETIC CONCEPT OF SUCCESS

This chapter explains the laws that help man to achieve success, whatever his desires may be. It is in no sense a formula for success, but any student studying these laws can apply them to his desires and ambitions. A few of the laws are: The Hermetic Key That Unlocks the Door to Success. The Fountain of Life Is Within. The Invitation to the Golden Feast. Success Requires an Intensified Desire. Man Is the Harp of a Thousand Strings. Success Is for All Who Make Themselves Worthy. How Miracles Are Wrought.

THE PHILOSOPHY OF OCCULT INITIATION

Here, in concise, clear and comprehensive English, the student finds an explanation of the Laws of Initiation, what Initiation is, how it is accomplished, and what man must do to earn Initiation. A few of the laws are: The Battle Between the Lower Self and Spiritual Aspiration. A Gradual Revealment of the Mysteries. Breaking the Bonds That Bind the Soul to the Selfish Self. Contacting the Hierarchies of the Aeth. Transmutation Is One of the Miracles of the Fire. A New Life and a New World.

THE HERMETIC TEACHINGS

Observing the ancient Hermetic command: "Man Know Thyself," this chapter explains the Laws necessary to bring the Soul into Individual Consciousness. The Laws include: The Laws of Material and Spiritual Success. The Greatest of All Mysteries—the Soul. Duality of God, Man and Nature. The World of Power. Man Is Ordained to Be a Co-Worker With God. Man's Environment Is His Own Making. The Soul on the Other Side of the Border Line.

HERMETIC SCIENCE AND THE ALCHEMICAL PROCESS

A very interesting chapter based on the fact that man is the subject of Hermetic Science. Among the more than fifty laws explained are: The Philosopher's Stone and the Elixir. "The Pearl of Great Price." The Human Nature of Man. Know Thyself. The Law of Nature Is Also the Law of Man. "In Thee Is Hidden the Treasure of Treasures." Occult Science is "the Straight and Narrow Path." The Human Body Is the Hall of Initiation.

THE OCCULT CONCEPT

Developing the threefold man through Occult Initiation. A few of the laws explained are: Man's Divine Origin. Generation and Re-Generation. Man Can Achieve Whatever State He Desires. The Soul Is Man's Spiritual Sun. The Light Leads to Immortality. The Spiritual Still Unexplored. Magnetism and Psychology. A Few of the Powers Employed by Initiates. Magnetic and Alchemical Healing. The Aeth Fire. The Path to Godhood. "I AM THAT I AM TO BE."

OCCULT INITIATION

This chapter explains the laws governing man. It tells the reasons for success and failure in every department of life. Among the laws explained are: To Feel Is to Be—and to Be Is to Become. A Positive Imagination for Healing Mental and Bodily Ills. Magnetism, Mesmerism and Hypnotism. The Initiate Need Never Know Actual Want. It Is NOT Wrong to Desire the Best Things the World Has to Offer. God Helps Those Who Help Themselves. Wealth, Power and Possessions Are Rightfully for Man If Honestly Obtained. Man Is Himself the Implement Through Which He May Achieve Success.

A COMPENDIUM OF OCCULT LAW, by R. Swinburne Clymer; printed on fine book paper; front and back stamped in gold, cloth binding; 270 pages. Price, postpaid, \$2.50.

P. B. RANDOLPH IN FRANCE

THIS is the story of a Karmic debt involving P. B. Randolph, Eliphas Levi, and Napoleon III, and the appointment of Randolph as Supreme Grand Master of the Fraternity for the entire world.

In the legend of a mighty king who lived centuries ago, the reader is given an insight into what Randolph believed the reason for his then pilgrimage on earth, and why he, with Eliphas Levi and Napoleon III, was involved in the same spiritual Karma, and met as members of the Fraternity, each to co-operate with the others in working out the spiritual debt which the three as a group had contracted in the long, long ago.

Interwoven in the human interest story are explanations of the seven varieties of ghosts; the existence of Gnomes, Sylphs, Salamanders, Nereids, Dryads and Fays; the power of the Pentagram; the double triangle of Solomon, etc.

Under the heading, "A Vision That Is More Than a Vision," the reader secures a glimpse of the vast procession of the newly risen dead, all seeking to unbar the Gates to Glory, that they may pass into the delightful Garden of the Beatitudes. Failing to enter, each must turn back to Mount Retrospect to search for the triple key which alone can unbar the gates.

This story also tells the *origin* of the occult terms: "Light," "Life," and "Love." Throughout the story many occult laws are revealed. It is a book students will desire for the information it contains as well as for the fact that it helps to round out the occult library.

THE UNIVERSAL CONFEDERATION OF INITIATES

The Second Fama Fraternitas—for a New Age Beginning in the Twentieth Century

DURING February, 1939, in Paris, France, at a meeting of the Supreme Grand Masters of European and North American occult orders, there was organized and brought into activity a World-Wide Confederation of Orders, Temples, Societies and Fraternities of Initiation.

While the present book was published primarily for occult students, the information it contains was considered so vital that it is now offered to the general public.

In the foreword, Dr. R. Swinburne Clymer, Supreme Hierarchy of the World Confederation, gives much occult information not usually found in books, including an explanation of occult symbolism.

The introduction explains fundamental laws as taught by all authentic occult bodies, laws which lead the student to Initiation, Soul Consciousness, Mastership and, ultimately, Immortality.

The section devoted to articles of Confederation also discusses the rights of man and Soul development. The final two pages are devoted to signatures and seals of the participating occult bodies.

The Confederation was further approved at a meeting during March, 1940, in Central America, when the South American occult bodies affiliated.

The prologue of the book *Ravalette* contains a complete report of the meetings in Paris, France. This report reads like a mystical Fairy Story, taking the reader behind the scenes and acquainting him with occult masters as great as any the world has ever known.

THE UNIVERSAL CONFEDERATION OF INITIATES, by R. Swinburne Clymer. Large 10 x 14 pages, 32 pages, printed on hand-finished deckle book paper, limp cover in imitation purple velour, gold stamped. Prepaid, \$1.00.

THE ROSE CROSS ORDER

THIS book was published in 1916 to place before occult students the true facts of various controversies resulting from the publication of books on love and the sex nature by Dr. Paschal Beverly Randolph, formerly Grand Master of the Rosicrucian Fraternity.

In a minor degree the book also discusses the then active so-called black magician named Alister Crowley, while at the same time telling the truth about a pseudo-Rosicrucian organization launched by H. Spencer Lewis under the name of Ancient Mystical Order Rosæ Crucis, or in its abbreviated form, AMORC.

While the book is largely devoted to charges and counter-charges, newspaper articles and trials at Court of Law, much information is divulged regarding the true history of the Order, its authenticity, its American activity, its teachings and its authority, all proving in an indisputable manner that the Randolph Foundation of the Rosicrucian Order is the only true Rosicrucian Order active in America, and that all others using the name are illegitimate, attempting to take advantage of the public by proclaiming themselves to be what they are not—and to teach a philosophy regarding which they themselves are in ignorance.

The book is recommended to students interested in learning the history and background of the Rosicrucian Order in America.

After the present edition is exhausted, the book will not be reprinted. Number of copies very limited.

THE ROSE CROSS ORDER, by R. Swinburne Clymer; printed on fine book paper, cloth bound; 208 pages. Price, post-paid, \$2.00.

MASTERSHIP, THE DIVINE LAW

No OCCULT student can claim to really be on the path to knowledge, wisdom and Illumination until after he has acquired a good knowledge of Occult and Spiritual Law. This book is entirely devoted to occult laws. Here are a few of the laws discussed:

Initiation; The Law of Vibration; The Soul's Descent; Man and the Great Beyond; Failures; Faithfulness; Evil and Its Origin; Suffering; The Law of Freedom; Magnetic Power of the Mind; Thought and AETH Forces; Magnetic, or AETH, Potency; Protection Through Divine Law; What of God?; Destructive Negative Yogaism; Leaders; The Vow or Obligation.

Because of the vital importance of the contents of this book it is used as a textbook wherever there is a study class of the Secret Schools. It is the outstanding and leading publication dealing exclusively with Occult and Spiritual Law, as it affects the individual in relation to his work, his progress on the path, and his ability to understand, discuss and apply occult law to his own daily life, action and thought.

Of all the books offered, *Mastership, the Divine Law* should have a place of honor and be considered one of the most important books in the library of the occult student.

MASTERSHIP, THE DIVINE LAW, by R. Swinburne Clymer; printed on high quality book paper; 224 pages, cloth binding; front and back stamped in gold. Price, postpaid, \$2.00.

THE WAY TO LIFE AND IMMORTALITY

THE author boldly and authoritatively stresses bodily health as a necessity to Immortality, clearly explaining that crucifixion of the flesh is a hindrance rather than a help in achieving spiritual development.

It is explained that true religion consists in doing the will of God, in man becoming a creator of his own conditions in life, replacing fear with hope and courage, and through the establishment of health find the way to an abundant life and ultimately Immortality.

The list of contents includes:

Heal the Sick; And He Sent Them to Preach the Kingdom of God; Belief in Death Brings Death. Belief in Life Brings More Life; The Life Without Death Is God's Plan; Only the Life of Death Leads to Death; Truth at First Seems Hard; Man's Duty Is to Glorify God; God Is Ever With Those Who Are With Him; What of the Crucifixion of the Flesh?; Life Without Religion Is Not Human; Man, the Temple of the Living God; Fear, the Gate of Death; The Wrong Life, the Life of Sin, Alone Brings Death; Healing the Sick Possible; There Is No Reason for Man to Be Sick; God and Nature the Only Physicians; To the Body, Nature Is the Physician.

In this book there is an explanation of the Spiritual Law which permits man to so develop his Godly nature that he need not experience death, proclaiming the truth of the Bible statement that "Whosoever liveth, and believeth in the Christ, shall never die." This book makes an ideal companion to "The Way to Godhood."

THE WAY TO LIFE AND IMMORTALITY, by R. Swinburne Clymer; printed on fine book paper, bound in cloth; 204 pages. Price, postpaid, \$2.00.

THE WAY TO GODHOOD

ONE of the most outstanding books of its kind ever published, explaining the Law of Personal Responsibility and its importance in relation to spiritual development and material success.

This book teaches the new commandment: "Be Thou a Man and Thou Mayst Be a God." While it is a book on religion-science-philosophy, it recognizes that man's first duty is to himself, and that without some degree of material and financial success man is of little use either to himself, to his fellow-man, or to God.

The book is highly recommended to every occult student and to all Neophytes of the Secret Schools. The chapters include:

Manhood and Responsibility, the Goal; Heaven, the State of Happiness, Must Be Found on Earth; Life, Not a Disease, an Evil, From Which to Fight for Freedom; Conscious Individuality, the Goal of Life; It Is Not Necessary to Renounce the World and Its Possessions; Hope, the Elevating Magnet of Life; Suppress a Natural Desire and It Becomes a Vice; Servitude Follows Weakness; Natural Instincts Are the Promptings of Nature—the Handmaid of God, and the Mother of Goodness—and Are Therefore Good; To the Weak, a Doctrine of Weakness Seems Natural; Total Depravity Comes Only Through Living a Depraved Life; Health Is Necessary to the Highest Degree of Manhood and to Manliness; Neither Wisdom Nor Goodness Is Indicated by Renunciation of Earthly Possessions; The Kingdom of Heaven Is a Kingdom of Joy and Satisfaction; Suffer Not Injustice to Be Done; The Spirit of Chivalry and Fairydom Is Constructive in Its Effects; Manhood or Degeneracy, Which?; Your Own Will Come to You—If You Work for It.

This is essentially a textbook on the life that shall lead man from weakness, disease and death to freedom, strength, personal responsibility and power far greater than before known. An ideal companion book to *The Way to Life and Immortality*.

THE WAY TO GODHOOD, by R. Swinburne Clymer; printed on fine book paper, bound in cloth; 192 pages. Price, postpaid, \$2.00.

SCIENCE OF THE SOUL

DISTINCTLY new in its treatment, the *Science of the Soul* acknowledges the fact that the Soul is an entity capable of trial, test and identification, thus making possible an entirely understandable method of Soul development.

"Just as a man waking from a night of good normal sleep regains consciousness and knows that he is conscious, in like manner does the Soul of man, when aroused from its sleep, know that it has regained consciousness."

The above paragraph taken from the introductory remarks tells the aim of the most ancient of all Sciences—the *science of Soul culture*. The awakening of the Soul and its subsequent growth until it reaches Illumination are treated in a manner that is both interesting and easily assimilated.

Some of the chapter headings in this book are:

Annunciation—Conception; The Soul; Building the Soul; The Soul's Awakening; Illumination; The Soul in The Beyond; Coming of Christ; Atonement; Crucifixion; The Passover; The Law of Compensation; Healing; The AEth Potency.

SCIENCE OF THE SOUL, *new, enlarged edition*, by R. Swinburne Clymer; printed on fine book paper; 300 pages, bound in cloth; front and back stamped in gold. Price, postpaid, \$2.50.

THE INITIATES—FIVE VOLUMES

DURING the period from 1928 to 1933 the authentic Rosicrucian Fraternity published a monthly magazine containing a wealth of information on a great variety of occult truth and occult laws.

Because much of this information is highly instructive and because much of this material does not appear in any of the occult books of the Fraternity, these publications are now offered in book form. Each volume contains the bound copies of the magazine for a year.

Here the student will find the rare and otherwise unavailable writings by such masters as Paschal Beverly Randolph, formerly Supreme Grand Master of the authentic Rosicrucian Fraternity; Alexander Wilder, M.D.; General Ethan Allen Hitchcock, and many others who have real truth to reveal to the sincere student on the Path.

The subjects discussed are too numerous to mention, as they comprise several hundred titles ranging from the Sphinx, the Pyramid, the Philosopher's Stone and Cosmic Consciousness to a brief history of the outstanding authentic occult schools which existed and taught Truth throughout the centuries.

No other work of the August Fraternity brings you the thoughts of so many individuals. Each volume contains gems of truth you will treasure, inspiration and encouragement to help you achieve a new understanding of Divine Law and Soul Illumination.

The five volumes in cloth binding are available at \$11.00.

THE ROSICRUCIAN FRATERNITY IN AMERICA

Its True Nature and Exact Status Revealed; Ballyhooing Propaganda—Show Window Dressing—Big Bluffing—Challenging to Public Debate as a Fire Escape From the Burning Truth.

THE ROSICRUCIAN FRATERNITY IN AMERICA, by R. Swinburne Clymer; Volume I, 464 pages, Volume II, 959 pages; bound in cloth; front and back stamped in gold. Price, express prepaid, \$5.00.

(These books are available at most of the large libraries in the United States. If not at your library, have your librarian write us regarding our special offer to libraries.)

ALCHEMY AND ALCHEMISTS

THESE four books truly unlock the doors to the mysterious expressions of the occult writers of all times. These volumes constitute instruction of the highest type, excepting, of course, the private lectures of the Secret Schools. Every sentence, every paragraph is written in easily understood English. While an abundance of occult terms are used, each term is explained and its meaning made clear. Any student who studies these books intelligently, and who makes up his own dictionary as the occult terms and phrases are explained from page to page, will have the key to unlock the treasures of countless books by ancient writers—books which heretofore were meaningless or impossible of understanding by the student.

The Elixir of Life, the Philosopher's Stone, the real meaning and purpose of Alchemy, all are discussed and described in a manner that will make these books prized beyond words by every true and sincere student.

Because of the wide scope of knowledge, the authenticity, the authoritativeness of the author, and because of the simple manner in which intricate and complex subjects are discussed, these books have been used in the colleges of the Secret Schools as textbooks to teach the fundamental doctrines upon which the Neophyte is to build his Soul or Immortal edifice.

ALCHEMY AND ALCHEMISTS, by R. Swinburne Clymer; printed on good paper, cloth binding; back and front stamped in gold. Price per set of four volumes, postpaid, \$8.50. Number of sets limited.

THE MYSTICISM OF MASONRY

THIS book imparts the spiritual interpretation of many of the Masonic symbols, but is not to be looked upon as an exposé of Masonry in any sense of the word.

Masonry is of interest to the occult student because it furnishes an unusual number of keys which help the student to unlock many of the ancient mysteries, especially so as Masonry is claimed to have been the foundation upon which religion was founded.

The Mysticism of Masonry comprises quotations from the very highest Masonic authorities, with the Mystic, Occult or Rosicrucian interpretation. That this book is not only approved, but actually studied, by members of the Masonic Fraternity is proven by the fact that fully 50 per cent of the sales of this book have been to Masonic Supply Houses and is to be found in almost all Masonic Libraries.

The occult student who is interested in symbolism or occult law will find a wealth of vitally important information between the covers of this book. Being composed mostly of Masonic quotations, the compiler was able to select only such quotations as would be of real interest to every student, information extremely helpful as an aid on the path to occult enlightenment and wisdom. SEERSHIP—GUIDE TO SOUL SIGHT

AS ITS name implies, this book is a key to the development of Soul sight and is divided into three sections.

Chapter I—Explaining the eight kinds or varieties of clairvoyance, giving specific rules and easily understood descriptions of the true and false methods. Much space is devoted to the various phases of Mesmerism, its power and uses; Oriental, European and American methods; Black Magic, voodoo, spells, charms, projects; the road to power, love, money; the degrees of clairvoyance and how to reach them. This chapter contains information and instructions usually not found in a book offered to the general public, and to students of mysticism it is of untold value and should be welcomed as the most authentic book of its kind obtainable anywhere.

Chapter II—The Magic Mirror and its uses. Strange and curious things seen in the magic mirror. Its use by George Sand, Count St. Germain, Hargrave Jennings, Cagliostro, Frederick the Great. Extraordinary methods for holding a psycho-vision steady as a picture. Danger of Spirit control. Facts. Theory. Construction of Magic Mirrors. Failures and successes. Chemistry of mirrors. The past, present and future as actually seen. The antagonical polar law of love. The master passion. After death. Rules and laws of magic mirrors.

Chapter III—The making of mirrors. Why are they magic? The mirror dance of India. The higher uses of the mirror. The Slumber of Sialam. Who can and who cannot see in a mirror.

This list of contents is somewhat ambitious, but it exactly reflects the contents of this unusual book. It tells you why students prize this book so highly, and why it will be one of the most cherished books in your private occult library.

SOUL, THE SOUL-WORLD

A MOST wonderful book by P. B. Randolph, who takes the reader on a trip to the "hereafter," where various personalities are met, conditions explored and Immortality of the Soul established.

The entire story is based on definite instructions for the "Blending" of two Souls, a method used and recommended for reading the thoughts of others. In this book, however, Randolph tells of using this power to "blend" with the Soul of a certain Cynthia, who had passed into the Beyond, and that this "Blending" was so pronounced that for the time being he actually became Cynthia, experiencing her experiences, feeling her sensations, having her thoughts, walking side by side with her, talking (mentally) with others in the Spiritual World, and reporting the facts so completely that the reader instinctively feels that in reading the book he is partaking the experience of a Master.

These experiences prove three great truths:

First—That man survives the ordeal of disaster and death.

Second—That men are on a much higher scale than is indicated by their ordinary life experiences, and that all evil is on the surface, while that which is of priceless value (Soul) is deep within.

Third—That external acts, thoughts, selves, worked out even to the best advantage, are very insufficient tests of what man really is; that in spite of death, a man's a man, all the way from time to eternity, and will be so forever and forever more.

Of special interest to occult students is the chapter devoted to The Winged Globe (Soul), the House of Many Mansions, and the greatest palace of them all—Intuition.

OUR STORY OF ATLANTIS

NO OTHER book ever published contains so much authentic information regarding the ancient continent of Atlantis, its people, their migration to Europe, their knowledge of occult science, and the fact that, even though the continent sank some 10,000 years ago (the flood of the Bible), its people were advanced in the sciences to a far greater degree than is the present civilization.

From cover to cover the book is filled with occult lore, occult mysteries, occult laws, with footnotes to explain the laws recorded as mysteries or history.

This is the book, originally published in 1903, which predicts the reappearance, within a hundred years, of Atlantis above the waters of the Atlantic, stretching from the southern part of the United States to the coast of Africa. It also predicts that within 500 years the bulk of the earth's population will be south of the equator, and that the most ancient of all continents, Lemuria, will also rise from the sea, become dry land, and will again sustain its millions of inhabitants. The introduction plainly states:

"Not only did the Isle of Atlantis exist, but it was also the source of all civilization, even as we know it today, and during the existence of Atlantis men developed themselves, the arts and sciences to a degree unknown even today. Forces barely guessed at by our material and physical scientists of today were fully understood, harnessed and directed by the Atlanteans, so that the tasks of life became pleasures."

OUR STORY OF ATLANTIS, by W. P. Phelon; printed on watermarked, laid book paper, beautifully bound in cloth; back and side stamped in gold; 174 pages. Price, postpaid, \$2.00.

THREE SEVENS

THIS is a novel originally published about fifty years ago and is the basis for the more recent allegorical and philosophical works of fiction, written to bring to the unenlightened public a realization of the existence and purpose of the Secret Schools.

Three Sevens explains three seven-year periods of occult development in the experience of a Neophyte. (Years as here used simply mean a period of time. Time required for development depends upon the application and seriousness of the student.) The novel takes the reader behind the scenes of Initiation and, while the real mystical meaning is hidden in a human-interest romance, many occult Laws are explained and numerous mysteries made clear.

From cover to cover the story is replete with occult lore, mysterious occurrences, mystical Initiations, entrancing descriptions of the long travels and experiences of an adventurer in search of Truth, Wisdom and Initiation.

To the seeker after Truth, this novel is a revelation, pointing out the "straight and narrow path" for which all mankind is seeking.

To the advanced student it is a book of inspiration and revelation. Even though the book masquerades as fiction, it contains, hidden within its pages, many mighty truths which will entrance and delight the student and Neophyte. The footnotes alone contain an abundance of Occult Law and explanation of Occult Mystery. This feature very greatly enhances the value of the book.

THREE SEVENS, by The Phelons, with footnotes by R. Swinburne Clymer; printed on high-grade paper; 178 pages, bound in cloth; front and back stamped in gold. Price, prepaid, \$2.00.

THE SONS OF GOD

THIS is a book so different from ordinary occult writings that it is almost impossible to impart to the reader a true realization of the enormous occult information to be found in this single volume.

Primarily, *The Sons of God* interprets and explains the mysteries and the meanings of the foremost mystical writings of all times, including many of the mystical passages of the Bible.

Throughout the entire book, from cover to cover, there is a continual explanation of Occult and Spiritual Laws, which in turn are applied to the everyday experiences of man.

It is essentially a book of inspiration, as it forcefully portrays the need of real men and women in every walk of life; men with strength of character; men with Will-power and determination; men who are builders; who uplift humanity; and who are ever ready to render service for the good of all mankind.

The Laws quoted are as old as the world, but many of the interpretations apply directly to the present times and make the book all the more valuable for its recognition of the needs of the present generation.

The writing throughout is in the spirit of the new age, the spirit of *Manisis*, and embraces the requirements of the new age, an entirely New Era which is to continue for almost 2,000 years.

This book belongs to the Soul Science series and is recommended to every student for serious study.

THE SONS OF GOD, by R. Swinburne Clymer; printed on fine book paper; 192 pages, bound in cloth; front and back stamped in gold. Price, postpaid, \$2.00.

SOUL CONSCIOUSNESS

A PRIMER sufficiently elementary for the beginner, yet esoteric enough for the most advanced aspirant, pointing the way out of the wilderness of doubt and uncertainty, and giving the reader a sound foundation on which to build knowledge, wisdom, advancement, and both spiritual and material success.

Throughout the entire book the various laws are applied toward helping man succeed in his work or profession, the author realizing that man's first obligation is to himself, and then to others.

Here are the eleven interesting chapters:

The Christ; The Divine in Man; Development; Formology; Love; Christ, Osiris and Other Sons of God; Vocation and Development; The Church; Prayer; Soul Science and Health; Healing.

The author points out the fact that any success worthy of real effort must be spiritual and Soulual as well as material. The man who succeeds financially but suffers because of bodily ill-health, or lacks peace of mind, cannot truly be termed as successful.

Soul Consciousness should be studied by every occult student. Every page carries information eagerly desired by the Neophyte, imparting many of the laws of success in every department of life.

THE SACRED COLLEGE

THE more advanced students of the Secret Schools are requested to study mythology, and especially the stories of knighthood. To the average reader these stories are the fiction of an imaginative mind. For the Initiate and advanced students these stories have a deeper significance. The Mysteries and Mythology they contain are as so many keys by which strange truths may be unlocked.

The Sacred College is a book containing such stories, all of them used to form the class instruction for students at the Sacred College during the Convocation of May and June, 1917.

The interpretations are written by a Rosicrucian in the light of Rosicrucian Lore. Following are a few of the stories:

The Fate of the Roses—(The Easter or June Festival of the Church of Illumination.) *The Rape of the Lock*—An interpretation. *The Sangreal*, or Holy Grail—Its Mystical meaning. *Sir Galahad*—The lesson he teaches. *Sir Gawain*. *Sir Launcelot*—The most faithful of the knights. *Sir Perceval*. *Sir Bohort*. *Sir Launcelot Resumed*. *Sir Galahad Resumed*. *Sir Agrivain's Treason*—A deep lesson for all students. *Morte D'Arthur*.

The stories of the *Knights of the Round Table* has ever exercised a spell over the reader. In them are found the Knights who personified the extremes of good and evil, and all the intermediate passions. They can well be compared to the passions and desires resident within man. Each story, properly interpreted, offers an occult mystery and a key to advancement in the Sacred study.

THE WAY

THIS book contains a philosophy and system of thought found in no other work today. The Secret Schools consider it so important that at one of the Convocations it was used as a textbook for class instructions.

The unusual contents is indicated by these chapters:

The Magi—Mystical instructions handed down through the ages. *Nature*—The mother of all things. *The Way to Life*—"I am the Way, the Resurrection, and the Life." *Existence*—Force, Motion, Forms. *The Laws of Life*—The laws governing true growth. *Life and Form*—Existing things depend upon form for power. *God and Spirit*—Worship in Spirit and in Truth. *The Saviour*—Is man saved by another or must he save himself? *To Become*—The Occult Law of Growth. *Christ*—"God is Spirit." What is Spirit? *Life*—The ultimate of all things. *Father-Mother; The Ego; Curses; I Am.*

Every student is constantly in search for books that are authentic and which give information worthy of serious study, helping the individual in his ever-onward march on the path that leads to Wisdom and Illumination, and, ultimately, to Immortalization.

The Way is such a book. It is by a writer who during his lifetime was one of the leading lights of the Secret Schools, and while his public writings are very limited, they are distinctly worthy of study. This book offers a wealth of information and is recommended to every student of occult science.

THE ILLUMINATED FAITH

Interpretation of St. Matthew

THE Interpretation of St. Matthew is the first attempt of the Illuminati to give to the seeking world a clear interpretation of that Gospel. These interpretations are such as can be readily understood by all, and the laws applied to everyday life in the finding of peace, new life, new faith in God and His teachings.

To obey the Laws as interpreted in this book is to find the Christ, the conscious sonship with the Father, and a religious faith nothing can shake.

The Higher Law—It governs body, mind, spirit and Soul, a clear distinction being made between these four departments of man's being. *Development*—No development is possible unless the individual clearly understands what he is doing. It is dangerous to meddle with the human machine without an understanding of the Divine Law. *The Forces*—The Divine Law and the Natural Law are one, but the Divine Law applies to the things of the Soul, while the Natural Law applies to material manifestations. *True Guidance*—This book is a guide to all man need know in his desire to follow the path to Light, Life and Love. *Going Astray*—There is no danger of the seeker going astray if he studies these Laws and obeys them. *The Forces and Their Uses*—All forces are for use by man. Wisely used, they will enable the seeker to make all the resources of his fourfold nature available to help him achieve his every desire.

The book explains the Divine Law underlying all things, and with a knowledge of these Laws, man can set into motion only such forces as work in harmony with his constructive desires.

In Press: THE MYSTICAL INTERPRETATION OF ST. MATTHEW. A complete revision and very much enlarged, \$2.50. Should be ready by end of 1944. NOTE: These teachings are interpreted to apply to the present age. Until the end of the war, will be sold only to Members and Neophytes. Member may buy copies for friends.

Through the use of these Laws man can also free the self from the cruelty and selfishness brought about through ignorance and wrong teachings.

In these two volumes, the student is shown the Way, and is taught to obey, to live, to *Know*.

In his Introductory Notes, the author, R. Swinburne Clymer, has written the following:

"The student is to be warned that in seeking to attain the heights of Mastership his purpose dare not shift from one mark to another. If he is satisfied with the philosophy and the religion that are his, he should not dabble in Soul Science. If he is dissatisfied and discouraged, then he should forever cast from him the old creeds and everything belonging to them, as well as his old habits, and, with all his might and all his heart, take up the study and practice of Soul Science and hold fast to it despite all the obstacles and discouragements that may confront him. If he does this, then success is certain and assured."

THE LAMP OF THE SOUL

This book is used as a text in the International Academy

THE "LAMP OF THE SOUL" is totally different from any other occult book to be found anywhere on earth. Those who have read the book say that it is without doubt one of the greatest occult books of all time. While it is highly scientific, its real mission is to teach mankind that the Soul's sojourn in the human body is for the one sole purpose of developing a Conscious and Illuminated Soul.

This is a book that will delight the scientist, the engineer, the professional man, and all men and women acquainted with science and capable of judging a philosophical teaching on the basis of carefully prepared scientific facts.

To the active student of Soul Science it comes as a true friend and counsellor. It gives the reasons for many facts which the student may have recognized as true, but for which he had no scientific proof.

The author discusses the laws of nature in an authoritative, sincere and convincing manner. He explains the basic laws governing all the kingdoms of earth, from the mineral to the vegetable, the animal and the human. Yet even while dealing with and explaining the lower kingdoms, these facts are analyzed and made clear as a preliminary to the greater explanation involving man's real purpose on earth.

While the book has fifty-six chapters, it is logically divided into the following seven divisions:

1. A review of facts and conditions showing a trend of man toward decadence.
2. An explanation of modern scientific principles of physics, astronomy and biology, as related to the problems under discussion.

3. The formation of these principles into a new dynamic cosmology.
4. Consideration of psychological findings as they apply to the ultimate goal of man, which is Soul Illumination and ultimate Immortalization.
5. The relation of social customs and the group mind to the Soul growth of the individual.
6. Development of a philosophy which corresponds to the flow of creative life in all its fullness.
7. An explanation of the culmination of the process of psychogenesis into Illumination and the relation of God to man's evolutionary process.

This volume is recommended, not as just another book worth reading, but as a volume to be seriously studied. It is a text book of the highest quality and will be treasured by every true occult student because of the many truths it explains and makes clear.

Because this book explains Divine Truth in a highly scientific manner, we recommend that it be studied slowly and with care. An ideal procedure is to study one chapter every week. In this manner it will require fifty-six weeks to study the volume, but the student will have gained a wealth of knowledge and new Truths impossible to realize in any other manner. Each chapter should be read and studied from three to six times before proceeding to the next chapter. This will be an unusual procedure, but the book is also very unusual and the student undertaking such a program will quickly discover his contact with a source of truth such as was never before realized or suspected. It is truly one of the greatest of all occult books and deserving of an honored place in the library of every occult student.

Correct diet for pregnant women so that health might be instilled into the child before it is born; a text that mothers can consult for children of various ages; correct combinations of various foods for the maintenance of health and strength of the body.

All instructions are complete and detailed, being based on questions asked in letters covering a period of more than twenty years, received from those in need of such dietetic instructions.

An entire chapter is devoted to explanations of how food affects the teeth; why men, women and children suffer so greatly from poor teeth; both cause and remedy being fully discussed.

Food substitutes often act as destroyers of health and happiness. Foods are often robbed of their food value in the process of refining or canning. The principal food elements, such as proteins, hydrocarbons, carbohydrates, mineral elements, fats, sugars, starches, fruits, regulators, etc., are briefly discussed in relation to the foods in which these elements are found, and according to the bodily needs of these values in the daily diet.

NATURE'S CURATIVE AGENTS

Thomsonian System

THIS book is written especially for those who desire knowledge of Nature's Curative Agents. It is complete in every detail and written so that the layman can easily comprehend and apply the teachings, especially as practically all the herbs, barks and berries may be collected in almost any section of America.

Many laws dealing with late discoveries in dietetic (and herbal) science are considered, and every herb, root and bark known to contain the organic mineral elements (the lack of which in the human system is causative of disease) is fully treated.

Every physician should master the system so as to be able to apply it when called upon to treat his patients in the natural way. The layman should become equally informed so as to prevent many of the ailments from which man now suffers uselessly, and to be prepared for emergencies.

Eighty-five natural remedies (herbs, etc.) are each discussed separately and their use suggested as a remedy for 169 bodily ailments, all properly indexed for convenient reference. A special "Clinical Index" gives both the Latin and English names of the natural remedies, herbs, barks, berries, etc.

It is truly an unusual book for every occult student interested in studying nature's natural remedies for all bodily elements.

NATURE'S CURATIVE AGENTS—THOMSONIAN SYSTEM, by R. Swinburne Clymer, M. D.; printed on fine book paper; 224 pages, bound in silk cloth. Price, postpaid, \$2.00.

THE NATURA PHYSICIAN

DURING the years 1930 and 1931, *The Natura Physician* was published as a monthly magazine for the instruction of students interested in the prevention and cure of diseases through nature's natural remedies, mostly fruits and vegetables.

The present volume is a reprint of Volume 1 and Volume 2 of the monthly publication. It is an ideal companion to the book, *Diet, a Key to Health*, recognized by physicians and food authorities as one of the best books of its kind ever made available to the public. *The Natura Physician* is highly recommended to every student interested in food values and bodily nourishment. It is also one of the very few books available giving the mineral and vitamin content of many fruits and vegetables.

Various group diseases are discussed, such as:

Infectious or Zymotic Diseases—Diphtheria, Scarlet Fever, Croup, Tonsillitis, Smallpox and the lesser contagious diseases; *Common Colds and Food Deficiencies*; *Thoughts on Ultra-Violet Rays*; *Scarlet Fever Toxin*; *Migraine*—Periodic Sick Headache; *Experimental Dietetics*; *Infantile Paralysis*.

While bodily ills are discussed, the greatest value of the book is in the authentic information it contains on the study of foods, from the standpoint of their acid-creating or alkaline-reacting qualities, and their importance in disease prevention.

THE NATURA PHYSICIAN, by Dr. R. Swinburne Clymer; printed on enamel book paper; 290 pages, bound in cloth. Price, postpaid, \$2.50.

MAKING HEALTH CERTAIN

(*Philosophical Study*)

ADVANCED occult students fully recognize that there is a direct affinity between the spiritual and physical nature of man. "As above, so below," and "As within, so without," apply to the spiritual (within) as well as the physical (without) well-being of man. To transgress spiritual laws brings about bodily ill-health. When a man thinks of sickness and failure, he attracts sickness and failure to himself. It is the law of "As within, so without."

The book describes and proves the vital *positive* connection between physical health and the kingdom of heaven; and the *negative* connection of sickness, failure and misery, with the conditions recognized as *hades*, or the sphere of error and darkness. These truths are founded upon Sacred Scripture.

The author claims that all illness, irrespective of its nature, is caused directly through ignorance, or the refusal to live in harmony with Law, or the "Divine Law." The Law actually is both natural and Divine. The development of man's spiritual, mental and Divine nature depends upon his physical well-being.

The reader is requested to rid himself of the age-old idea that man is born forever to suffer in sorrow. Once man breaks the fetters that bind him to false belief, he soon gains strength, physically and mentally, learns to live simply, naturally, normally, and in accordance with the laws of God and Nature, and quickly frees himself from weakness and sickness, sorrow and failure, and, ultimately, from the fear of death.

THE IRRECONCILABLE GNOMES OR CONTINUATION TO THE COMTE DE GABALIS

THIS is a forty-eight-page paper-bound booklet printed in 1911. Its real value is in the fact that it reports a conversation between an Initiate and the Prince of the Gnomes.

The Initiate attempts to induce the Gnomes to serve mankind, pointing out that through such service and intercourse with human beings the Gnomes can achieve Immortality.

The Gnomes, invisible to mankind because composed of only a single element, such as fire, air, water or earth, are incapable of loving, and therefore incapable of feeling pain. Being incapable of love necessarily makes the Gnomes mortal, but with a life-span of about 300 years.

Man, on the contrary, is composed of all four elements, therefore capable of loving, of feeling pain, and possessing a Soul germ capable of being Immortalized.

The Prince of the Gnomes contends that the winning of Immortality is not worth the sacrifices and efforts necessary, pointing out that the characteristics, the selfishness and the vice prevailing among the lower strata of mankind do not make a creditable argument.

The Initiate upholds the importance of the Soul and the power of man to bring about its Immortalization through right living.

The arguments brought out by both sides reveal much information regarding the nature of the Soul, and the booklet is highly recommended to every student interested in Soul Science and spiritual enlightenment.

The booklet also contains short sketches of the famous books known as the *Keys of Solomon the King* and *Grand Grimore*. Price, per copy, postpaid, 25 cents.

SECRET AND PRIVATE BOOKS

THE Secret Schools offer enrolled students much instruction in the form of secret and private books. These books are printed, but not published. They are not sold, but loaned to students for life, on receipt of donation as specified.

All of these books contain some of the highest knowledge available to man; knowledge not permitted anyone except those obligated, or willing to be obligated, to silence.

Divine Alchemy is perhaps the most outstanding of these books and no student can travel very far on the Path unless he has a full knowledge of the Laws of Regeneration as described in this secret and private book of instructions.

Each and every one of these books has some outstanding characteristic, divulges certain knowledge not obtainable elsewhere, and most students and Neophytes of the Secret Schools ultimately secure possession of the entire series of secret and private books.

DIVINE ALCHEMY

THIS is a private book for the obligated student. Printed but not published, and furnished only to those willing to take the obligation of silence.

No other book ever offered gives more secret, private and closely guarded secret instructions intended only for the eyes and minds of sincere students who have proven themselves worthy of receiving knowledge that divulges some of the most sacredly guarded information reserved for private study by the students of the Secret Schools.

The contents include:

Asgill's Rules—These are rules taught by Dr. P. B. Randolph and never revealed to any but private students.

Esoteric Points of the Mystery—Among the subjects treated in this chapter are: God and Nature; True Marriage; The Marital Office; The True and Perfect Union, etc.

The Divine Work—Teaching what sex really is and expounding the Law of Transmutation.

Alchemy—Giving in detail all the laws.

Vital but Generally Unknown Laws.

Laws Anciently Taught.

The Mysteries—Containing: True Initiation; The True Fire; The Ancient Fire Worship; The Light Within and True Soul Power.

This book makes clear the mystery of magic, the art of the alchemist, and teaches the student to build within himself the temple built without saw or hammer.

DIVINE ALCHEMY, by R. Swinburne Clymer; printed on imported Japanese parchment, bound in genuine leather, stamped in gold. The book is never sold, but loaned to obligated students during their term of membership, or for life, after which the book is to be returned to the Fraternity. Loan basis, a \$10.00 donation.

THE GREATER MYSTERIES

Two Volumes

IN ancient Egypt, after the people became demoralized and foreign hordes overran the country, the Initiates met and swore a solemn oath that:

A new country (Land of the Spreading Eagle) should spring forth, and that one of their number who had been king, but had betrayed his trust, should make the supreme sacrifice and incarnate in this new country at the proper time, call together those who had been well instructed and trained, and at a special Convocation bind themselves together to work for the New Age, so that in the course of years it should once more come to pass that only Initiates should be permitted to rule the people and look after their welfare. This time is now at hand, the work is progressing, the circle is enlarging, and the mysteries are being taught to all worthy and sincere students.

Much space in this book is devoted to the *Ineffable Light*. Many mysteries are explained, including: The Key to Religion; The Sacred Fire; The Symbolism of the Sun and Moon; The Mystery of Phallic Worship; Generation and Regeneration; Sex Worship; The Mysteries of Mythra; The God of Light; The Tradition of the "Generative Rock"; The Seven Degrees of Initiation; The Mystery of Osiris; The Mystery of the Druids; The Symbolism of the Serpent; The Temple of Solomon; The Fate of Hiram Abiff, or the Legend of the Third Degree; Winged Globe; and many other mysteries held sacred in occult literature.

THE GREATER MYSTERIES, by R. Swinburne Clymer; printed in two colors on ivory book paper, one side of the page only; top edges of pages gold powdered; bound in genuine leather; front and back stamped in gold. Two volumes. Printed but not published. Loaned only to obligated students on receipt of donation. Postpaid, \$25.00.

THE EXALTED LIFE

THIS book is the result of many years' experience in teaching students the Higher Life and the development of the body, mind and Soul. It contains no untried or unnecessary theories. Every teaching and principle as given in this book is *authentic* and necessary to living the Highest Ideal possible to man. The advanced student will find it a very desirable and instructive addition to his library, while to the novice it is indispensable.

It deals with the Metaphysics of Regeneration and Immortality; correct use of the Sex Function in the process of Regeneration; The Elixir of Youth; The Gospel of Life; the Natural Food of Man, and many other subjects not permissible to mention in a catalog of this type.

One full chapter is devoted to the Hygienic Laws; recommendations of the proper foods essential to the Higher Life; Baths for Cleanliness; absorbing magnetism; Soul development; exercises for Correct Breathing, and a comprehensive discussion on the value of Sun Baths.

THE EXALTED LIFE, by Guru Rakadazan; a strictly private book, printed but not published; obtainable only by those willing to take the obligation of silence; 223 pages, available only in the de luxe edition; printed on exceptionally fine paper; front and back stamped in gold, bound in silk cloth. BOOKS TEMPORARILY OUT OF PRINT

BECAUSE of war-time restrictions in the manufacture and sales of book paper, it is impossible to secure sufficient paper stock of a quality and weight as used in the printing of all our books.

At the time this catalog is being reprinted our stock of certain popular books is entirely depleted. These include:

The Book of Rosicrucia.

The Mystery of Osiris or Egyptian Initiation.

The Illuminated Faith of St. Matthew.

While orders for these books are continually being received, there is nothing we can do except to return the money.

All of these books are on the schedule for reprinting immediately after the close of the war, or just as soon as paper of the proper quality and weight is again available for book publishing purposes.

In the meantime this catalog offers many of the most popular of occult books—immediately available. We particularly recommend: *The Science of the Soul*, a book which apparently is the outstanding favorite with occult students; *The Philosophy of Fire*, a book filled from cover to cover with occult truths and history; *The Compendium of Occult Law*, the world's outstanding book on Occult and Spiritual Law; and *The Lamp of the Soul*, a text book of such great importance that it will no doubt be used by students for study purposes for the next hundred years.

THE INTERPRETATION OF **St. Matthew**

Among the Apostles, St. Matthew was considered the Law Giver. His writings contain the Divine Laws to a much greater degree than any other book of the Bible. These are the laws which were written for the purpose of guiding mankind in every thought, word and activity.

While these truths are contained in the Bible, their real meaning is usually hidden in parables and symbols. Bible students throughout the ages have devoted much time and effort to an attempt to decipher the hidden meanings of these scriptures.

While several centuries have elapsed since the Nazarene walked the earth, it was not until now that anyone with sufficient knowledge of Bible meanings and Bible interpretations made this information available to the public.

How many are there who can explain the hidden meaning of the Laws incorporated into the Sermon on the Mount, or in the Lord's prayer? How many can interpret correctly the parables of the ten virgins and the talents; the feeding of the multitude with five loaves and two fishes, the laborers of the vineyard, the calming of the winds, or the Lord's supper?

What meanings do you place on such sayings as

Render unto Caesar . . . ; Blessed are the meek . . . ; Let the dead bury the dead; You must pay to the uttermost farthing; An eye for an eye; The Kingdom of Heaven is at hand, and hundreds of others of a similar character?

These Divine Laws are interpreted and explained in the new and revised *Interpretation of St. Matthew*.

To study these interpretations should be a "must" for every occult student, while to the student on the path to Soul Illumination and Immortality, this knowledge is indispensable and will aid in a more rapid spiritual development than would otherwise be possible.

The *Interpretation of St. Matthew* gives the student a law for "living the life" that leads to the most exalted pinnacle of spiritual development. It places before him the complete laws for human behavior; the laws governing man's every activity, enabling him to not only be successful in his spiritual desires, but also in material activities.

Even more than this, it brings to the truth seeker an understanding of God, a recognition of man's real purpose on earth, as also the Salvation and Illumination of his own Soul.

The Interpretation of St. Matthew: The Way, The Truth, The Life. A complete Interpretation of St. Matthew as applied to the present age. Two volumes, totalling more than 600 pages; bound in cloth; front and back stamped in gold. Price, prepaid, \$5.00. (Sold only in two-volume sets.)

The Master Work

ANNOUNCING THE TWO MOST IMPORTANT VOLUMES
PUBLISHED DURING THE PAST CENTURY

THE WAY, THE LIFE, THE LIGHT

In ordinary material activity, man's failure or success depends largely upon his knowledge and experience.

When man strives for spiritual development or Soul Illumination, he cannot succeed in his efforts unless he first secures a knowledge of Divine Laws governing all mankind; the laws of right living. By applying these laws to his own life, he can achieve mastership over the carnal self, and, ultimately, Immortality and At-onement with the Father, thus fulfilling the real purpose for which the Soul came to earth and entered a human body.

The "Laws of Living" which help man accomplish this are contained in the Interpretation of St. Matthew, as further described on the following pages.
